RAILING SYSTEMS

The Ametco® **railings** are designed for use on balconies, decks and stairs. These railing systems are based on the same infill panel method as our **fence systems** and our other product lines. Panel sections for railings are available in a variety of styles, patterns and sizes. Installation is fast and efficient, and the modular design keeps panel replacement simple. The **railings** are manufactured to be both functional and decorative, harmonizing visually with any environment. Radial pattern railings

and other designs can be **custom fabricated**. Just provide us with specifications for a quote. Each railing system is built to withstand a 200 lb. load in any direction. The infill panels for Ametco's railing systems are available in electro-forged welded steel design, extruded aluminum blade design and perforated aluminum or stainless steel design. A polyester powder coating, available in 15 standard **colors**, makes the **railings** durable and able to withstand exposure to the elements.

ADDITIONAL AMETCO DESIGN

ALL AMETCO RAILING SYSTEMS ARE DESIGNED TO WITHSTAND A 200 LB. LOADING IN ANY DIRECTION. THE INTEGRITY OF THE RAILING SYSTEM IS DEPENDENT ON THE INTEGRITY OF THE ANCHORING SYSTEM. SEE AMETCO FENCING CATALOG FOR ADDITIONAL INFORMATION.

STEEL RAILING SYSTEMS

The Ametco® steel **railings** are designed for use on balconies, decks and stairs. This railing system is based on the same infill panel method as our **fence systems** and our other product lines. Panel sections for railings are available in a variety of styles, patterns and sizes. Installation is fast and efficient, and the modular design keeps panel replacement simple. The **railings** are manufactured to be both functional and decorative, harmonizing visually with any environment.

STEEL RAILING INFILL PANELS

METRO®

Specify:

Electro-forge welded steel fencing. Ametco Metro design— $\frac{3}{32}$ " x $\frac{1}{8}$ " main bar, $\frac{3}{16}$ " round cross bar, $2\frac{7}{16}$ " x $5\frac{3}{16}$ " mesh. Galvanized to ASTM 123 and/or powder polyester coated.

LATTICE

Specify:

Electro-forge welded steel fencing. Ametco Lattice design— $\frac{3}{32}$ " x $\frac{1}{8}$ " main bar, $\frac{3}{16}$ " round cross bar, $2\frac{7}{16}$ " x $2\frac{19}{32}$ " mesh. Galvanized to ASTM 123 and/or powder polyester coated.

STADIUM®

Specify:

Electro-forge welded steel fencing. Ametco Stadium design— $\frac{3}{32}$ " x $\frac{1}{8}$ " main bar, $\frac{3}{16}$ " round cross bar, $3\frac{15}{16}$ " x $3\frac{15}{16}$ " mesh. Galvanized to ASTM 123 and/or powder polyester coated.

GROTTO®

Specify:

Electro-forge welded steel fencing. Ametco Grotto design— $\frac{3}{32}$ " x $\frac{1}{8}$ " main bar, $\frac{3}{16}$ " round cross bar, $1\frac{21}{32}$ " x $5\frac{3}{16}$ " mesh. Galvanized to ASTM 123 and/or powder polyester coated.

SHIELD®

Specify:

Electro-forge welded steel fencing. Ametco Shield design— $\frac{3}{32}$ " x $\frac{5}{64}$ " main bar, $\frac{3}{16}$ " round cross bar, $1\frac{3}{4}$ " x $1\frac{21}{32}$ " mesh. Galvanized to ASTM 123 and/or powder polyester coated.

PERFORATED RAILINGS

The Ametco® perforated **railings** are designed for use on balconies, decks and stairs. The railing systems have a large variety of styles, patterns and sizes. From 1/4" round perforations to 4" square perforations to 1/2" x 4" slotted perforations. The perforated railing system allows you to design the pattern to be used. The railings are powder coated after fabrication in one of our 15 standard colors. The **railings** are manufactured to be both functional and decorative, harmonizing visually with any environment.
